STRATEGIC GROWTH ROADMAP • 90-DAY EXECUTION PLAN

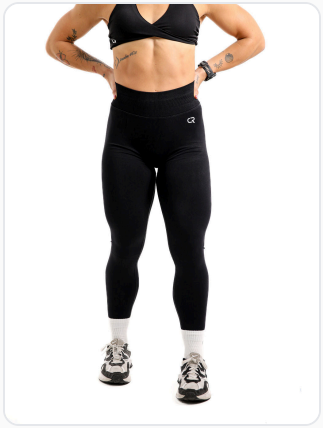

CODE RECLAIM

Brand Awareness & E-Commerce Sales Growth Strategy

A Customized 90-Day Digital Marketing Roadmap engineered to scale qualified acquisition, strengthen brand identity, and elevate product storytelling.

> *"Building a recognizable activewear brand. Turning visibility into meaningful customer growth."*
>
> CORE STRATEGIC DIRECTIVE • JACKIE & ABBAS RIZVI

VERIFIED ACTIVEWEAR COLLECTIONS: BECOMING • UNSTOPPABLE • ADAPTIVE • RECLAIM • STABILIZE

PREPARED EXCLUSIVELY FOR	PREPARED BY	PROPOSAL DATE	PROPOSAL VALIDITY

Jackie Founder, Code Reclaim team@codereclaim.com	**Abbas Rizvi** OmniPeak Digital omnipeakdigital.com	**October 22, 2026** Version 1.0 (Final Client Copy)	**14 Days** Valid through Nov 5, 2026

SECTION 01 • PERSONAL CORRESPONDENCE Date: October 22, 2026

A Personal Letter to Jackie

Dear Jackie,

Thank you for taking the time to share Code Reclaim with me. When we spoke about your highest-priority commercial goals for the brand, your answer was direct, clear, and unambiguous:

> *"More sales and brand awareness."*

Those two priorities are the north star of every recommendation in this proposal. In today's crowded activewear market, brand awareness and e-commerce sales cannot exist in silos. Brand awareness without an intentional conversion path creates vanity impressions that never reach checkout. Conversely, running transactional product advertisements without emotional resonance, community credibility, and a distinct visual identity leads to expensive customer acquisition costs and low repeat order rates.

The purpose of this strategy is **not simply posting on Instagram** or checking off routine social tasks. It is developing an integrated, commercial marketing engine designed specifically around Code Reclaim's existing store, products, and operational strengths.

Code Reclaim already has high-quality design lines—from the versatile *Adaptive* and *Becoming* sets to the supportive *Unstoppable* and *Stabilize* collections. Your store features accessible price points ($35 tops, $35–$38 bottoms), a customer-friendly free shipping threshold at $60, an authentic brand ambassador framework, and a bold, memorable ethos: *"Quiet Power. Loud Arrival."*

You do not need an agency to tell you to rebuild your website from scratch. What you need is a committed digital growth partner who understands e-commerce unit economics, crafts magnetic social creative, runs rigorous paid acquisition tests on Meta, and steadily turns qualified store visitors into confident, repeat buyers.

This 90-day roadmap outlines exactly how OmniPeak Digital proposes we build that momentum together. I look forward to your thoughts and to helping Code Reclaim realize its full commercial potential.

Abbas Rizvi

BRAND ARCHITECTURE & POSITIONING

“Your Brand Has a Story. Our Strategy Helps More People Discover It.”

Before recommending media budgets or publishing schedules, we completed a detailed independent review of Code Reclaim's activewear positioning, catalog economics, and customer journey. Here is how we see your brand's unique commercial landscape.

01

Product Storytelling

Each collection name carries psychological intent: *Becoming, Unstoppable, Adaptive, Stabilize,* and *Reclaim*. Translating these names into specific lifestyle use-cases (gym, pilates, workday layering, recovery) gives customers an emotional reason to buy.

VERIFIED: ACTIVE CATALOG HANDLED

02

Brand Differentiation

The market is saturated with neon workout fads and generic fast-fashion drops. Code Reclaim’s tagline “*Quiet Power. Loud Arrival*” positions the brand in the highly coveted space of understated luxury activewear with intentional silhouettes.

VERIFIED: VERIFIED STORE SLOGAN

03

Customer Trust Architecture

Code Reclaim has integrated customer review functionality (Judge.me / Klaviyo) and a generous 90-day return policy. Front-loading verified 5-star ratings into ads and social carousels lowers friction for first-time activewear buyers.

VERIFIED: 90-DAY RETURNS ACTIVE

04

Consistent Visual Identity

High-converting activewear brands succeed through visual discipline: consistent lighting, clean typography, recurring editorial color grading, and cohesive layout templates across Instagram feed, stories, and Meta ad units.

OPPORTUNITY: EDITORIAL UNIFICATION

05

Recognizable Social Presence

Moving beyond isolated product photos into dynamic reels, fit checks, styling transitions, and community reposts. Transforming the Instagram feed from an static gallery into an engaging digital showroom with distinct brand voice.

OPPORTUNITY: REOCCURRING VIDEO PILLARS

06

Acquisition & Retention Link

With individual tops at $35 and bottoms at $35–$38, introducing customers through a 2-piece set instantly crosses the $60 free shipping threshold ($70–$73 cart value), maximizing Average Order Value (AOV) and gross margin per customer.

ECONOMIC LEVER: $60+ THRESHOLD MATH

Methodology Note: All brand attributes above represent verified elements directly accessible from codereclaim.com and live public assets. No private traffic or financial data has been assumed.

STRICT VERIFIABLE STANDARD

INDEPENDENT OPPORTUNITIES

Where We See Immediate Growth Opportunities

Rather than generic marketing tactics, our strategy focuses on five concrete, high-leverage commercial areas that directly impact Jackie's stated goals: *brand visibility* and *activewear sales*.

01

Increase Commercial Purpose & Publishing Consistency

Social posting without clear commercial intent leaves engagement disconnected from store traffic. Every scheduled feed post and reel should serve a specific purpose in the buyer journey: introducing a signature cut (e.g. Unstoppable Halter Top), showcasing fabric movement, answering fit questions, or guiding followers directly to a curated collection page with a compelling call to action.

02

Create Product-Focused Short-Form Creative & Lifestyle Storytelling

Short-form vertical video (Instagram Reels) remains the most powerful organic reach engine on Meta platforms. We recommend systematically transforming existing and new model footage into high-retention video formats: 3-way styling clips, sweat-proof workout stress tests, color-pairing guides, and day-to-night transitions that illustrate versatility beyond the studio.

03

Introduce Structured Facebook & Instagram Advertising Tests

Organic social alone rarely generates predictable e-commerce scale. A disciplined Meta advertising program allows Code Reclaim to systematically target activewear enthusiasts, fitness instructors, and pilates/athleisure buyers in specific zip codes and demographic tiers, testing which creative angles drive the most cost-effective add-to-carts and purchases.

04

High-Leverage Opportunity: Coordinated Set Bundling & Free Shipping Synergy

Verified Store Math: Code Reclaim proudly offers **Free Shipping on orders over $60**. Single tops are priced at $35 and bottoms at $35–$38. When a customer buys only one item, they fall below the free shipping threshold and face shipping friction. By actively merchandising and advertising *"Coordinated 2-Piece Sets"* (e.g. Adaptive Top + Shorts for $73), customers immediately unlock free shipping, increasing Average Order Value (AOV) by over 90% while providing superior customer satisfaction.

05

Amplify the Existing Ambassador Program & Creator-Led Assets

Code Reclaim already maintains an active ambassador intake application on its website. We see an immediate opportunity to activate this existing asset: structuring outreach to micro-creators, coordinating gifted sets for verified review videos, and repurposing authentic ambassador try-ons into high-converting Meta advertising creative.

WEBSITE QA NOTE: During our storefront review, we confirmed Code Reclaim runs smoothly on Shopify Horizon with Judge.me reviews and Klaviyo tracking scripts. In Package 02 and 03, we include periodic verification of Meta Pixel events (ViewContent, AddToCart, InitiateCheckout, Purchase) to guarantee ad spend data is never lost.

END-TO-END FUNNEL

From Brand Discovery to Repeat Purchases

Marketing activewear requires a seamless bridge between visual inspiration and checkout certainty. Our five-stage growth framework connects organic storytelling, paid Meta discovery, on-site conversion optimization, and customer retention into a unified loop.

1 AWARENESS • “I SEE CODE RECLAIM”

DISCOVERY STAGE

Targeting women seeking premium, confident activewear through high-energy short-form reels, lifestyle storytelling, influencer collaborations, and prospecting Meta ad campaigns.

Reels Optimization | Interest Prospecting | Lookalike Seeding | Visual Identity Reach

2 INTEREST • “I UNDERSTAND THE PRODUCT”

EDUCATION STAGE

Educating prospective buyers on fit, waistband stability, fabric compression, and versatile styling. Highlighting how the *Adaptive* and *Stabilize* lines fit into everyday movement.

Product Feature Breakdowns | Fit & Sizing Carousels | Lifestyle Application

3 CONSIDERATION • “I TRUST THIS ACTIVEWEAR”

VALIDATION STAGE

Overcoming purchase hesitation through authentic ambassador reviews, video try-on demonstrations, 90-day return reminders, and verified customer testimonials.

Judge.me Review Highlights | Ambassador Try-Ons | Risk-Free 90-Day Returns

4 PURCHASE • “I AM ORDERING MY SET”

CONVERSION STAGE

Driving checkout through conversion-optimized Meta ads, dynamic catalog retargeting, clear calls-to-action, free shipping over $60 incentives, and frictionless mobile Shopify purchasing.

Coordinated Set Bundling | Abandoned Cart Retargeting | Shop Pay Accelerated Checkout

5 RETENTION • “I AM WEARING & REPURCHASING”

ADVOCACY STAGE

Nurturing existing customers with promotional email campaigns (Klaviyo), VIP early drop access, cross-selling complementary items (e.g. Elevation Crew Socks), and ambassador invites.

Klaviyo Retention Flows | New Colorway Launches | VIP Ambassador Tiering

EDITORIAL DIRECTION

Content That Builds Recognition & Purchase Intent

High-performing social content balances aspirational brand building with direct commercial triggers. We establish 6 reoccurring content pillars to guarantee variety and brand recognition.

PILLAR 01
Aspirational Activewear
High-aesthetic movement visuals in studio and urban settings celebrating personal strength.

PILLAR 02
Collection Spotlights
Focused deep-dives into Becoming, Adaptive, Unstoppable, and Stabilize lines.

PILLAR 03
Product Benefits & Styling
Waistband fit, fabric stretch, squat-proof testing, and transitioning activewear to streetwear.

PILLAR 04
Community & Ambassadors
Customer try-ons, gym-floor tag reposts, fitness instructor features, and authentic reviews.

PILLAR 05
Brand Ethos & Voice
Typography-led quotes, founder vision, and affirmations centered around “Quiet Power. Loud Arrival.”

PILLAR 06
Promotional & Bundling
Coordinated 2-piece set features, free shipping incentives above $60, and seasonal color edits.

PROPOSED EXAMPLE CAMPAIGN CONCEPTS (ILLUSTRATIVE STRATEGIC PROPOSALS)

Concept 01
Reclaim Your Everyday
Positioning the versatile Becoming line as essential wear from morning gym to afternoon errands.

Concept 02
The Becoming Spotlight
A dedicated 2-week focus on Becoming Top & Shorts ($70 combo) emphasizing breathability and fit.

Concept 03
From Workout to Everyday
Styling reels showing how to pair Code Reclaim leggings with oversized blazers, trench coats, and trainers.

Concept 04
Find Your Perfect Set
Interactive quiz-style carousel matching customer workout styles (lifting, running, pilates) to matching sets.

Concept 05
Quiet Power. Loud Arrival.
Editorial mini-films highlighting disciplined training, inner focus, and understated confidence.

Concept 06
Code Reclaim Community
Featuring verified real-life ambassadors wearing their favorite cuts with personal quotes and styling tips.

*Note: All campaign titles and slogans above are strategic concepts proposed by OmniPeak Digital for Jackie's review and approval.

PAID MEDIA METHODOLOGY

Reach the Right Audience. Learn What Drives Purchases.

Paid social on Meta is not a lottery; it is a systematic testing laboratory. We build structured campaigns that test creative hooks, isolate winning activewear sets, and optimize toward qualified customer acquisition.

ESSENTIAL FINANCIAL DISTINCTION • DIRECT BILLING TRANSPARENCY

Agency Management Fees are completely separate from Meta Advertising Spend. OmniPeak Digital bills exclusively for strategy, tracking setup, campaign management, creative coordination, and weekly/monthly reporting. All media spend is paid directly by Jackie to Meta via her own secure Meta Ads account. Jackie maintains 100% account ownership, full transparency, and unilateral budget control at all times.

Step 01 • Tracking & Pixel Verification

Verify Meta Pixel and Shopify Conversions API (CAPI) integration to ensure *ViewContent*, *AddToCart*, *InitiateCheckout*, and *Purchase* events fire accurately and deduplicate cleanly.

Step 02 • Cold Prospecting Architecture

Deploy broad and interest-stacked audience ad sets targeting active lifestyle, athleisure, gym wear, and boutique fitness enthusiasts to drive fresh discovery at competitive CPMs.

Step 03 • Creative & Copy Variations

Test 4 to 6 monthly creative iterations using approved product footage—testing aesthetic lifestyle reels, side-by-side color comparisons, and benefit-led static cards.

Step 04 • Retargeting When Data Supports

Once monthly pixel traffic generates sufficient unique visitors, launch warm retargeting campaigns to Instagram engagers and abandoned carts highlighting reviews and 90-day returns.

RECOMMENDED DIRECT META AD SPEND GUIDELINES (TESTING PHASE)

Package 02: Sales & Brand Accelerator

$300 – $600 / Month Direct to Meta (~$10–$20/day)

Ideal starting volume to validate 2–3 active ad sets, isolate responsive creative angles, and establish benchmark Cost

Package 03: Complete Growth Partner

$600 – $1,200 / Month Direct to Meta (~$20–$40/day)

Permits concurrent testing of up to 5 campaigns across cold prospecting, dynamic collection sets, and full-funnel

Per Click (CPC) and Add-to-Cart rates.

retargeting audiences.

*Important Compliance Note: All budgets above are recommended testing ranges, not guarantees of specific sales or Return on Ad Spend (ROAS). Actual spend is approved by Jackie and tuned to real product margins.

STOREFRONT DIAGNOSTICS

Making Every Store Visit More Valuable

Driving paid and organic traffic to an unoptimized storefront wastes marketing dollars. We focus on subtle, high-impact enhancements to the existing Shopify store that eliminate purchase hesitation and lift Average Order Value.

Scope Boundary Note: This proposal does **NOT** require or include an expensive complete website rebuild. Our focus is precision conversion optimization and content enhancements within Code Reclaim's existing live Shopify theme.

SHOPIFY OPTIMIZATION

AREA 01
Mobile UX & Navigation Polish
Over 80% of activewear ad clicks happen on mobile phones. Streamlining mobile collection filtering by cut and size ensures shoppers find their fit in seconds.

AREA 02
Homepage Value Proposition
Clarifying hero messaging to immediately articulate what distinguishes Code Reclaim: premium high-density fabrics, squat-proof durability, and effortless daily styling.

AREA 03
Product Page Benefit Hierarchy
Restructuring bullet points on product pages to lead with feel, compression level, waistband stability, and care instructions rather than generic descriptions.

AREA 04
Review & Social Proof Prominence
Positioning star ratings and verified buyer testimonials directly beneath product titles and add-to-cart buttons to dispel sizing anxiety before checkout.

AREA 05
Coordinated Set Merchandising
Adding “Pair With” cross-sell links (e.g. Adaptive Top linking directly to Adaptive Shorts) to encourage immediate 2-piece bundling across the $60 free shipping line.

AREA 06
Free Shipping Threshold Progress Bar
Adding an interactive slide-out cart indicator showing: *“You are only $25 away from Free Shipping!”* to prompt sock or top additions before checkout.

AREA 07
High-Converting Call to Actions
Audit button styling, sticky “Add to Cart” bars on mobile viewports, and color-swatch responsiveness across all five active activewear collections.

AREA 08
Cart Abandonment Follow-Ups
Review Klaviyo email capture pop-ups and ensure a 3-part abandoned cart recovery sequence actively reminds visitors of their reserved items and 90-day return safety.

AREA 09
Analytics & Event Tracking Health
Validate Google Analytics 4 (GA4) e-commerce purchase tracking alongside Meta Pixel to eliminate attribution blind spots between ad spend and store sales.

AREA 10
Ambassador Landing Experience
Upgrade the existing ambassador sign-up form with branded perks, community expectations, and a clear welcome sequence to increase creator sign-ups.

SECTION 08 • INVESTMENT OPTIONS Currency: USD • Transparent Direct Billing

COMMERCIAL TIERS

Tailored Monthly Marketing Partnerships

Choose the level of agency support that fits Code Reclaim's immediate goals and capital structure. Each tier delivers clear, accountable monthly assets.

TIER 01 • CONTENT FOUNDATION

Brand Essentials

$399 / Month

Best for building a consistent, polished activewear social presence with professional design and planned editorial cadence.

- **12 Branded Feed Posts** / month (IG & FB)
- **4 Short-Form Reels** / month
- **8 Story Frames** / month
- Monthly Editorial Content Calendar

SECTION 10 • IMPLEMENTATION SCHEDULE
Horizon: 90 Days

EXECUTION PHASING

Our First 90 Days Together

A disciplined, quarterly rollout designed to build foundational tracking, launch creative assets, test advertising angles responsibly, and scale what works.

MONTH 01 Foundation, Setup & Launch

DAYS 1 – 30

- Complete kickoff onboarding, access audit, and asset gathering.
- Meta Pixel & Shopify Conversions API tracking verification.
- Develop 30-day editorial content calendar across all 6 pillars.
- Produce initial batch of 16 branded posts, 8 reels, and 12 stories.
- Launch initial prospecting ad sets featuring top sets (Becoming & Adaptive).
- Identify priority mobile conversion opportunities on Shopify product pages.

MONTH 02 Test, Refine & Optimize

DAYS 31 – 60

- Review Month 01 creative response: identify top-engaging video hooks.
- Iterate ad messaging: test fit/compression hooks vs lifestyle aesthetic.
- Refine target audience clusters based on Cost Per Add-to-Cart data.
- Promote 2-piece set promotions to increase carts over $60 threshold.
- Implement approved website conversion recommendations on product pages.
- Hold mid-quarter strategy check-in to review verified traffic performance.

MONTH 03 Refine & Scale Responsibly

DAYS 61 – 90

- Concentrate Meta ad budget on proven top-performing sets and ads.
- Deploy warm retargeting sequences to site visitors and social engagers.
- Audit Customer Acquisition Cost (CAC) against gross product margins.
- Review customer retention, repeat orders, and cross-sell sock uptake.
- Formulate Next-Quarter Strategic Growth Blueprint for Code Reclaim.
- Executive quarterly review call with Abbas Rizvi.

Performance Reality Statement: Performance depends on audience response, seasonal activewear trends, direct advertising budget, product economics, market conditions, and available creative assets. Specific sales outcomes, ROAS

figures, or customer counts cannot be guaranteed.

MEASUREMENT GOVERNANCE

Clear Reporting. Meaningful Business Metrics.

We reject agency reports stuffed with confusing jargon or fake charts. Our reporting breaks performance down into three clear business categories so Jackie always knows how marketing connects to commercial growth.

CATEGORY 01

Brand Awareness

Measuring how many qualified people discover Code Reclaim and actively engage with its visual content.

Unique Account Reach	Instagram / FB
Total Impressions	Feed & Reels
Engagement & Saves	Post Interactions
Profile Visits & Clicks	Bio Link Action
Organic Follower Growth	Quality Community

CATEGORY 02

Traffic & Shopping Activity

Tracking customer movement from social platforms directly onto codereclaim.com product pages.

Outbound Link Clicks	Referral Traffic
Cost Per Click (CPC)	Ad Efficiency
Store Product Views	ViewContent Events
Add-to-Cart Volume	Shopping Intent
Initiated Checkouts	High-Intent Funnel

CATEGORY 03

Commercial Performance

Evaluating bottom-line business metrics when accurate conversion tracking and ad spend data are present.

Attributed Purchases	Campaign Orders

Cost Per Acquisition (CPA)	`Ad Spend / Order`
Average Order Value (AOV)	`Cart Total Trends`
Attributed Store Revenue	`Shopify Tracked`
Return on Ad Spend (ROAS)	`Revenue / Ad Spend`

REPORTING PROTOCOL:

All reports are compiled directly from native analytics platforms (Shopify Analytics, Meta Ads Manager, GA4). In Packages 02 and 03, performance reports are reviewed verbally during our scheduled strategy check-in calls to ensure Jackie is always informed and confident in next steps.

OUR PHILOSOPHY

More Than Content. A Partner Focused on Growth.

OmniPeak Digital is a full-service performance marketing and brand consultancy. We partner with ambitious founders to engineer integrated digital growth across creative strategy, paid acquisition, and conversion optimization.

✓ Direct Strategist Communication

You will not be handed off to junior account coordinators or outsourced call centers. Abbas Rizvi serves as your primary strategic partner, providing direct access, thoughtful commercial counsel, and rapid responses.

✓ E-Commerce Unit Economics Focus

We don't celebrate vanity metrics like impressions if they don't move the business forward. We examine product margins, free shipping thresholds, and Average Order Value to build sustainable, compounding growth.

✓ Transparent Monthly Deliverables

Every package contains exact, contractual deliverable quantities for posts, reels, stories, ad sets, and conversion hours. You always know what is being created and when it will be delivered.

✓ Strict Direct-Billing Integrity

We never mark up advertising spend or conceal media costs. You pay Meta directly through your own credit card, retaining full data ownership, audience history, and pixel equity permanently.

COMMERCIAL TERMS

Investment Summary & Commercial Terms

Clear, straightforward commercial terms designed for trust, operational alignment, and responsible partnership.

PACKAGE 01

Brand Essentials

$399 / Mo

Agency fee only. Paid advertising not included. Pure organic content foundation.

PACKAGE 02 — Recommended

Sales & Brand Accelerator

$1,099 – $1,399 / Mo

$799 agency fee + $300–$600 recommended direct Meta ad budget paid to Meta.

PACKAGE 03

Complete Growth Partner

$1,899 – $2,499 / Mo

$1,299 agency fee + $600–$1,200 recommended direct Meta ad budget paid to Meta.

1. Billing & Currency

All fees in USD. Monthly retainers are billed monthly in advance via credit card or bank transfer. Services commence upon payment receipt.

2. Recommended Initial Engagement

We recommend an initial 90-day engagement to allow sufficient time for pixel calibration, creative testing, and optimization. Any long-term commitment is agreed separately.

3. Direct Advertising Spend

Meta advertising spend is paid directly by Jackie to Meta via her own advertising account. Advertising spend is completely separate from OmniPeak agency retainers.

4. Client Asset Ownership

Jackie maintains 100% ownership of her Shopify store, Instagram account, Meta Ads account, pixel data, customer records, and all approved final creative assets.

5. Client Approvals & Content Cadence

Client approval is required prior to campaign launching. Deliverables assume up to two revision rounds per scheduled content batch and timely client feedback.

6. Asset Provision & Licensing

All deliverables assume client-provided product photography, model footage, or licensed stock. Original studio filming, models, or travel require separate quotation.

7. Excluded Third-Party Expenses

Product sample shipping, creator compensation, influencer gifting fees, and third-party software subscriptions (e.g. Shopify apps) remain client expenses.

8. Cancellation & Termination

Specific cancellation notice periods and renewal terms will be formalized in the mutually signed Master Service Agreement prior to work kickoff.

SECTION 14 • STRATEGIC CONCLUSION

Partnership Launch

Let’s Turn Code Reclaim’s Vision Into a Stronger Digital Presence.

STRATEGIC AGENCY RECOMMENDATION

Recommended Choice

Sales & Brand Accelerator — $799 / Month

Jackie, based on your stated dual goals of **increasing sales** and **building brand awareness**, this package is the clear strategic recommendation. It delivers an active, high-quality organic presence (16 posts, 8 reels, 12 stories) while establishing professional Meta advertising management and on-site Shopify conversion support. It creates immediate customer acquisition momentum without prematurely burdening Code Reclaim with large enterprise agency retainers.

Agency Retainer: **$799/mo** • Recommended Meta Ad Budget: **$300–$600/mo** •

Total Combined: **$1,099–$1,399/mo**

Jackie,

Thank you for sharing your vision for Code Reclaim. I believe the next step is to build a marketing strategy that reflects the quality of your brand while helping more potential customers discover your products.

My team and I would be pleased to support Code Reclaim with a structured, creative, and performance-focused approach.

I'd welcome the opportunity to discuss the package that best fits your current goals and budget.

Best regards,

Abbas Rizvi
Managing Strategist, OmniPeak Digital
https://omnipeakdigital.com

Ready to Discuss Your Growth Strategy?

Let's schedule a brief 20-minute alignment call to review any questions, select your starting package, and outline our 30-day onboarding timeline.

Proposal Valid For: 14 Days

Note: Client communications for Code Reclaim remain addressed to Jackie (team@codereclaim.com). Agency inquiries can be directed via omnipeakdigital.com.
